Hero Habits AI – Feature 3

Wearables Pairing & Tracking

Overview:
This feature allows families to pair wearable devices (Fitbit, Apple Watch, generic trackers) with the app to track activity, steps, calories, and sleep. It offers visual dashboards and family comparisons to promote healthy habits.

Screen 1: Device Pairing
• Device list (Fitbit, Apple Watch, Generic)
• Connection status: Searching / Paired / Failed
• Pair/Unpair button and confirmation pop-ups

Screen 2: Activity Dashboard
• Daily stats: Steps, active minutes, calories, sleep quality
• Refresh/sync button to update data

Screen 3: Family Comparison
• Leaderboard comparing family activity
• Avatars and ranking by steps/active time

Screen 4: Historical Trends
• Weekly/monthly charts for steps, sleep, and activity
• Personal bests (e.g., "Most steps in a day: 8,000")

Pop-ups & Alerts:
• "■ Device successfully paired"
• "■ Sync reminder: Your device hasn't updated today"
